FHIR COURSE

Introduction to FHIR

What resource would you use for?

Activity

Table of Contents

Table of Contents	2
Activity Overview	3
1. An oral diet order	4
2. Radiology report.....	4
3. Fetal and Maternal Monitor	4
4. An optometrist	4
5. Dictated Sound Clip	4
6. Respiratory Rate	4
7. Sputum	4
8. Pharmacy.....	4
9. Patient educational material sent by a provider to a patient	5
10. Hernia repair.....	5

Activity Overview

In this Activity, you will need to indicate the best suitable resource that fulfills the requirement.

What resource would you use for?

For each of the following situations / elements, indicate which resource is the most suitable to represent it.

You need to indicate the name of the resource and why you have chosen it

1. An oral diet order

A request for oral diets (including general diets such as General Healthy diet, or therapeutic diets such as Consistent Carbohydrate, 2 gram Sodium, or Fluid Restricted)

2. Radiology report

It is the report. It is not the DICOM images

3. Fetal and Maternal Monitor

It is the medical equipment.

4. An optometrist

It is the physicians

5. Dictated Sound Clip

It is the audio recordings

6. Respiratory Rate

It is the vital sign

7. Sputum

Sputum is the material that comes up from air passages when you cough deeply. It is the sample for lab test

8. Pharmacy

It is the healthcare service

9. Patient educational material sent by a provider to a patient

It is a record of a communication

10. Hernia repair.

In a traditional repair, the surgeon makes an incision several inches long near the hernia.
